•

Customer: amediateka.ru

• Instagram mask on the theme of the release of the 3rd season of the series "Wild West World" "HBO"

Unity Developer

Gefest - Moscow, ID
Январь 2019 по Июнь 2019

Development from scratch of interactive programs for those tasks. Finalization of ready-made builds. Additionally - development of sketches for microcontrollers, soldering and collection of working mechanisms. All programs are not in the market, they were created only for personal use. Development Platform - PC
Developments at the moment:

1 - "TNT songs" creation of an advertising and information leaflet.
https://www.youtube.com/watch?v=SXlPYMZLLPU

2 - "Chant" was used at the Universiade 2019 in the city of Krasnoyarsk. An entertaining attraction, in which a scale of noise level is displayed and when a certain result is achieved, the RGB diode ribbon lights up, the colors of the winner. https://www.youtube.com/watch?v=yvk7289MBpc

3 - "Cloud" is an interactive mirror, the idea is that a person would approach the mirror and have thoughts on the subject of the Universiade at his head.

4 - "Museum of Atomic Disasters" an information program for displaying data about the museum as well as historical clippings about nuclear disasters and technologies.

5 - "Wish Tree" display of wishes to the company on tree branches (3D tree with animation of branch movements) maintaining a database table of those who wrote and what they wrote and the time when they wrote, a screenshot of the window as well as intellectual filling of empty space on the screen with text.

6 - Demo presentation for UralMash using AR technology, a plant module with human interaction for a more detailed examination of it from different angles as well as inside.

7 - "Leading" universal program for displaying presentations / lectures. Setup via ini file. Work with external files.

8 - "Silomer" attraction for a sports festival in Krasnodar UFC-themed, measure the impact force using an accelerometer, reads the arduino data and sends them to the program on your computer. Displaying the result and maintaining the ranking table of strong men.

9 - Repair of interactive installations in the Vysotsky Museum and finalization of sketches.

10 - "Museum of Geography" - information program

11 - "Military Museum of the Battle of Stalingrad Volgograd Reconstruction of Paolus" - information program Photo / Video / Text / Projection of the hologram

12 - Information program for "LUKOIL"
2 programs

13 - Project under Arduino and kinect "Endless mirrors"

14 - The Derzhavin Museum information program with a game quiz.

15 - Queen Museum Naukograd, Information Program

16 - The Queen Museum Naukograd,
Quiz game

17 - Information program "Investment project of Yakutia"

18 - An advertising and gaming application for the company "Indeco"

19 - Game-informational application on the theme "Fighting AIDS"

20 - Information application on the forum on packaging products "PART"

21- Information application for "MINPROMTORG of Russia"

22- Information program for the search for investments of mobile medical buildings "FAP"
